| Location: Kolkata, India

Professional Summary

Results-driven Computer Science Engineering graduate (2025) specialising in **Backend Development, Enterprise Applications, and ERP Analytics**. Completed a professional internship at Vitwo Technologies covering backend API development, automation testing, and enterprise data solutions — recognised for strong technical performance and awarded a **permanent employment offer**. Proficient in **Java, Spring Boot, REST APIs, Python, SQL, Apache Spark, Databricks**, and **Generative AI** technologies. Passionate about building scalable backend systems, analytics platforms, and AI-powered applications.

Technical Skills

Programming Languages:	Java, Python, SQL
Backend Technologies:	Spring Boot, REST APIs, MVC Architecture, API Development
Database:	MySQL, phpMyAdmin
Big Data & Cloud:	Apache Spark, Databricks
Artificial Intelligence:	Generative AI, Large Language Models (LLMs), LangChain, Retrieval-Augmented Generation (RAG), Prompt Engineering, Machine Learning, Computer Vision
Developer Tools:	Git, GitHub, Postman, IntelliJ IDEA, VS Code, Anaconda
Other:	Automation Testing, Business Intelligence, Debugging, Technical Documentation, Excel, Google Sheets

Professional Experience

Software Intern → Permanent Employee Offer

Sep 2025 – Mar 2026

Vitwo Technologies, Kolkata

- Developed and maintained **RESTful backend APIs** using Java and Spring Boot following MVC Architecture, enabling reliable data exchange across enterprise ERP modules.
- Designed and implemented **advanced analytics dashboards** and enterprise reporting modules — covering financial, sales, ageing, spend, and exception analytics — improving Business Intelligence reporting for cross-functional teams.
- Contributed to **analytics automation** pipelines and data integration workflows, reducing manual data processing and centralising enterprise data sources.
- Performed **automation testing**, debugging, and defect validation to ensure software quality and backend reliability across ERP modules.
- Recognised for technical performance and consistent project contributions — offered a **permanent role in Software Development** before internship completion.

Projects

Advanced Analytics Dashboard

Java, Spring Boot, SQL, Business Intelligence

- Designed and developed KPI-based Business Intelligence dashboards ingesting real-time enterprise data, enabling data-driven decision-making across finance and sales functions.
- Implemented financial, ageing, spend, and exception analytics reports integrated into the enterprise ERP reporting system, delivering actionable insights to stakeholders.

AI Personal Assistant

Python, OpenAI API, REST APIs, Streamlit

- Developed a multi-capability AI-powered assistant for email drafting, meeting summarisation, and live web search by integrating REST APIs with Generative AI models.
- Implemented dynamic tool routing using the OpenAI API to deliver real-time, context-aware intelligent responses across multiple use cases.

Chat with College Notes — RAG-based Q&A System

Python, LangChain, FAISS, Streamlit

- Designed and implemented a Retrieval-Augmented Generation (RAG) Q&A system enabling semantic search over academic notes using FAISS vector indexing and LangChain.
- Embedded and indexed 100+ pages of academic content, significantly reducing manual lookup time and improving information retrieval accuracy for end users.

Hand Gesture Recognition in Low Light

TensorFlow, OpenCV, MediaPipe

- Designed and trained a CNN-based Computer Vision model achieving **95% classification accuracy** for gesture recognition under challenging low-light conditions.
- Implemented image preprocessing and enhancement pipelines using OpenCV and MediaPipe to robustly handle adverse lighting environments in real-time inference.

Education

B.Tech in Computer Science & Engineering

2021 – 2025

Dr. Sudhir Chandra Sur Institute of Technology & Sports Complex, Kolkata

Percentage: **77.33%**

Certifications

- AI & ML Using Python
- Python Programming
- Programming for Everybody — Getting Started with Python (*Coursera*)
- Hand Gesture Recognition in Low Light Conditions

Publication

Sahrina Kabir (2025). *Hand Gesture Recognition in Low Light Conditions Using CNN, OpenCV, and MediaPipe*. International Journal of Scientific Research in Science and Technology (IJSRST).
